

Troika EVO

Trade In

Trade in your legacy or damaged **AniCAM** for a brand new **Troika EVO**, our most advanced system ever. Step up to best-in-class now now with a full three-year warranty¹.

What you're trading up to

Superfast scanning performance

A redesigned drive system delivers scans up to 70% faster than previous generation devices. Eliminate operational bottlenecks and spend less time testing.

Highest resolution in the industry

A new 2.3MP sensor (1920×1200) captures cell structure and surface wear in exceptional detail. Defects jump out instantly before they reach the press.

Integrated Power & Data

A single USB-C cable delivers power and high-speed USB 3.1 data, with advanced battery management for extended use.

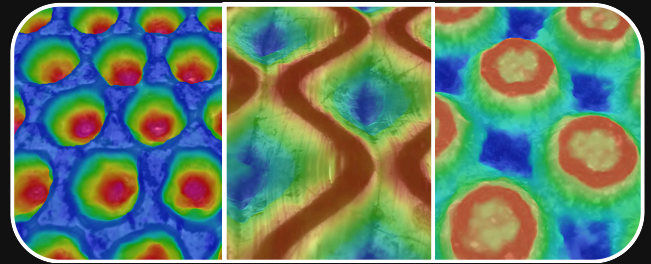

¹ Three-year warranty applies when AMP Gold is purchased within the second year of ownership for servicing .

Complete Quality Control

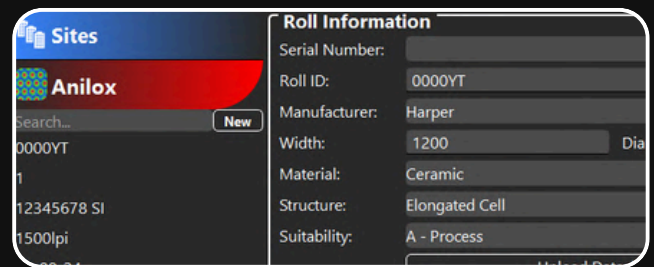

All Quality Control Tools Included

Every system includes full, automated analysis tools for your complete anilox, gravure, and flexo plate inventory. Instantly generate quantifiable metrics for cell volume, depth, wall angles, and screen counts with absolute repeatability.

Troika Management System™ (TMS)

Centralise anilox and gravure inventory across every site. View properties and scan history for faster decisions. Role-based control and traceable analytics streamline audits, reporting and compliance.

Includes

AMP Silver

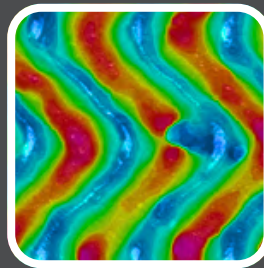

Software & Support

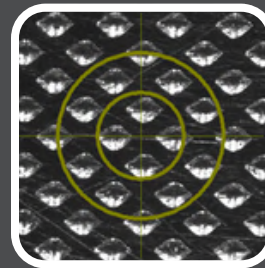

- Continual updates and feature upgrades.
- **Unlimited** technical support access.
- Up to 16 hours of onboarding and refresher training included.
- Critical settings backed up for instant recovery.

Plus: Unlimited² drop/damage insurance

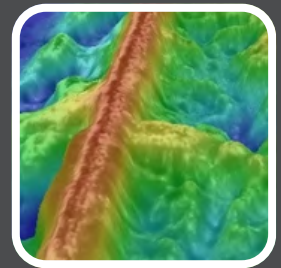

Access Great Software

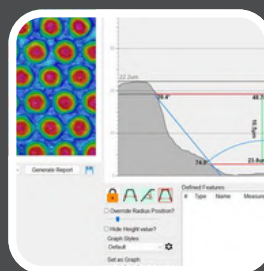

Complex Cell Analysis

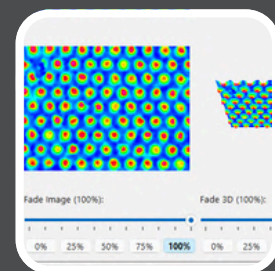

AniCAM Diagnostic Tool

Surface Roughness Analysis

Advanced Profile Analysis

Advanced Reporting Tool

² Drop/Damage excess applies for each claim, including shipping

If you can't **measure** it,
you can't **control** it.
